

# Service Brass G-11

# Service Brass Accessories

The stainless steel inserts are placed in the end of the polyethylene tubing to reinforce the tubing to accept compression joint couplings and valves. These inserts are for CTS and IPS polyethylene pipe only.

\* Before using insert stiffeners, be sure inside tubing or pipe dimension corresponds to the table below.

INSERTS FOR CTS PE TUBING *	SIZE	CTS ID	PRODUCT NUMBER
	¾"	.681	47730
	1"	.875	48330
	1¼"	1.069	48525
	1½"	1.263	48910
	2"	1.653	49310

INSERTS FOR IPS PE TUBING *	SIZE	IPS ID	PRODUCT NUMBER
	¾"	.824	47740
	1"	1.049	48340
	1¼"	1.380	48525 1
	1½"	1.610	48911
	2"	2.067	49311

## Pack Joint Gasket Sets

Sets include one rubber gasket and one anti-friction ring. Order gasket sets for copper or iron pipe pack joints.

SIZE	PRODUCT NUMBER	
	PACK JOINTS FOR COPPER TUBING	PACK JOINTS FOR IRON PIPE
½"	47131	47746
¾"	47746	47747
1"	48343	48344
1¼"	48524	NS
1½"	48933	48935
2"	49302	49301

## Pack Joint Set Screws

Set screws are for compression pack joints for copper tubing or iron pipe. Order for specific pack joint application.

SIZE	PRODUCT NUMBER	
	SET SCREWS FOR CPPJ	SET SCREWS FOR IPPJ
½"	47748	47134
¾"	47748	47134
1"	47748	47749
1¼"	47748	NS
1½"	48937	48938
2"	48937	48938
