TapMate™

The TapMate™ Drilling Machine is an affordable, lightweight machine for drilling 3" thru 12" sizes. Used with a tapping sleeve, it can cut PVC, A/C, Ductile Iron, Cast Iron and Steel pipe.

- **Low Cost** - TapMate™ costs about 1/3 the price of other available machines.
- **Lightweight** - TapMate™ weighs just 85 lbs., allowing easy handling and operation.
- **Simple to use** - because of easy to use controls, properly located position indicator and feed control.
- **Taps any pipe** - that is commonly used in underground water mains; - CI, Steel, A/C and PVC. Wet or dry taps come in 3" thru 12" sizes.
- **Positive manual feed** - with power or hand operation.
- **Simple construction** - allows for in-house maintenance and repair.

TAPMATE™ DRILLING MACHINE	PRODUCT NUMBER
	63526

The Base Machine and Storage Box Include:

- 1" Shaft Nose (used for 3" – 8" cuts)
- 1" Spade Bit
- PVC Pilot (necessary for any plastic pipe taps)
- Storage Box

NOTE: Due to the wide range of cutters, adapters and power drive options available, please contact your local Team EJP sales office for more information.
