### Pipe Bevel Inserts

Pipe Bevel Inserts are designed to streamline the pipe installation process. Manufactured from C-900 PVC and 24 gauge stainless steel, they help solve problems such as “fish mouthing”. Use of this product saves the pipe installer time and money while reducing the hazards of pipe beveling on the job site.

#### Features:

- OSHA compliant
- Fast and easy to use
- No tools required for installation
- Cost-effective
- Eliminates the need for mechanical joints
- Allows use of “push-on” fittings
- Use with PVC or Ductile Iron
- Ends wasted crew time grinding bevels
- Helps prevent cut or “fish-mouthed” gaskets
- Prevents OSHA citations for unsafe beveling practices

| PIPE BEVEL<br>INSERTS | SIZE | PRODUCT<br>NUMBER |
|-----------------------|------|-------------------|
|                       | 4"   | 38143             |
|                       | 6"   | 38189             |
|                       | 8"   | 38243             |
