

## Overview of Training

---

Sediment is the world's #1 pollutant. Soil moved by erosion can be harmful to our drinking water resources, our fish and wildlife, and can impact our quality of life. We all need to know our options for both controlling sediment and for designing and installing more effective long term erosion control solutions.

These field days are a unique combined effort between the private and public sectors to share information and promote a better understanding of the latest tools available to all who are entrusted with protecting our precious soil and water resources.

The day will start with classroom sessions and then move outdoors to small group sessions in a hands-on demonstration setting.

Our goal is to provide information that is immediately useful to all who attend.

---

## Sponsors and Presenters

- ◆ Grafton and Belknap County Conservation Districts
- ◆ NH Department of Environmental Services and Department of Natural and Cultural Resources
- ◆ USDA Natural Resources Conservation Service
- ◆ Northeast Chapter -International Erosion Control Association
- ◆ Everett J. Prescott, Inc.
- ◆ Insta-Turf
- ◆ Bio-Clean
- ◆ Berry Surveying & Engineering

Grafton County Conservation District  
19 Archertown Road, Suite 1  
Orford, NH 03777

## September Erosion Control Field Days

---

Training for professionals working in soils, erosion control, water quality, public works, engineering, roads, planning, and consulting.

Tuesday, September 10, 2019  
North Haverhill  
Wednesday, September 11, 2019  
Gilford

# Registration Form

**RSVP by September 3** for all locations.  
Make check payable for **\$55** and to the sponsoring conservation district:

## Session Attending *(check only one):*

**September 10, 2019** at the UNH Extension Conference Room, 3855 Dartmouth College Highway, North Haverhill. Send payment to: **Grafton County Conservation District**, 19 Archertown Road, Orford, NH 03777  
Session limited to first 30 attendees

**September 11 2019** at the Gilford Community Church, 19 Potter Hill Road, Gilford. Send payment to: **Belknap County Conservation District**, 64 Court Street, Laconia, NH 03246

\*Coffee and pastries will be provided for the morning sessions.  
\*A buffet lunch will be provided at lunch time.

**A reminder e-mail or letter with directions will be sent to you prior to the workshop.**

## Dates and Locations

### Tuesday, September 10, 2019

Grafton County Complex  
UNH Conference Room  
3855 Dartmouth College Highway  
North Haverhill, NH 03774  
Contact Grafton CCD (603) 353-4652 x.103  
or pamel.gilbert@nh.nacdnet.net

### Wednesday, September 11, 2019

Classroom: Gilford Community Church  
19 Potter Hill Rd, Gilford  
Field Stations: Ramblin' Vewe Farm  
637 Morrill Street, Gilford  
Contact Belknap CCD (603) 527-5880  
Or lisa.morin@nh.nacdnet.net

## Continuing Education Approvals

- ⇒ NH Department of Environmental Services Subsurface Credits : 6.0
- ⇒ EnviroCert International: Professional Development Hours (PDH): 6.0 hours

*Contact your professional association for more information regarding additional CEU's.*

## Agenda

*\*Agendas for each individual program will be finalized prior to each event*

- 8:00-8:30: Registration and Vendor Exhibits
- 8:30-10:00: Classroom Overview
- 10:00-10:30: Break and Vendor Exhibits
- 10:30-12:00: Classroom Presentations Continued
- 12:00-1:00 Buffet Lunch (provided)\*
- 1:00-4:00 Field Stations and Wrap-Up

## Overview - Classroom

- ◆ Soil Basics and Soils in Engineering
- ◆ Having a Best Practices Plan for Sediment and Erosion Control
- ◆ Establishing Vegetation for Erosion Control
- ◆ NH DES and NH Cultural Resources regulatory updates

## Overview - Field Stations

- ◆ Shoreline Stabilization
- ◆ Jobsite Sediment Control
- ◆ Under Ground Detention
- ◆ Roadway and Ground Stabilization
- ◆ Runoff Control and Drainage
- ◆ Bio-filtration
