

# Hydrants D-26

# Hydrant & Waterworks Tools

## Hydrant Setter\*

The hydrant setter greatly eases the installation of hydrants which can weight as much as a half ton. The lifting rings, which are held in proper alignment by the spreader bar, fit over the 2½" hose nozzles and are locked in place by the hose nozzle caps.

DESCRIPTION	PRODUCT NUMBER
Hydrant Setter with Spreader Bar	63281

\* Hydrant Setters are pull-tested, certified and tagged with capacity.

## Adjustable Hydrant Wrench

This hydrant wrench is adjustable to fit up to 1¾" pentagon operating nuts and pumper or steamer caps. The handle is knurled for a better grip.
