

## Multi-Purpose Saws

### HSB Hand-Held Air Saw (US60100)

#### Features:

- Geared belt driven power
- Cuts to 5-inches deep
- Non-slip waterproof belt
- Weight precisely balanced eliminates rocking of saw
- Built-in upright "at-rest" stand
- Adjustable guard
- Fume-free air power for safe use in confined spaces
- Lightweight and reliable
- Able to operate in water

#### US60200

#### SPECIFICATIONS:

7"	Blade capacity
2"	Cutting Depth
55cfm at 80psi	Air Requirements
14 lbs.	Weight (without blade)

#### Gas Powered Cut-off Saw Features:

Professional grade cut-off saws for cutting concrete, masonry, stone, marble, brick, asphalt, steel and more. Tough 73.5cc engine combined with high-torque transmission reduction system delivers excellent cutting performance. Engine decompression valve makes starting easy. Soft rubber rear-handle inserts absorb vibration for maximum operator comfort.

#### US14576

#### SPECIFICATIONS:

14"	Blade Capacity
5"	Cutting Depth
73.5cc	Engine Displacement
4.5 hp	Engine Power
2.87	Transmission Reduction
23.1 lbs	Weight (without blade)

### Air Powered Belly Saw (US60200)

- Two handles shaped to the curve of the underside of 6" – 12" pipes
- Simply excavate a minimal amount under the pipe and push saw in from one side and pull out from the other
- Saw has 4 spring loaded wheels designed to help the operator cut square and straight
- Requires just 7" of clearance
