Wherever your load needs to be delivered...

by land or

by sea

PEP Transportation has the equipment and the people you need to keep your project moving on track and on time!

PEP Transportation was formed in 1980 with one tractor trailer unit serving EJP in the transport of water, sewer and drain products within New England. With the growth of EJP and the demand for transportation, PEP began to add more units. PEP Transportation currently operates over twenty-five tractors and over forty-five trailers, including two drop deck trailers for high loads. PEP has authority to haul your product in 48 states and Canada. PEP Transportation has grown tenfold by developing a dedicated list of valued, repeat customers. PEP Transportation can handle all your needs, whether your load is forty-eight thousand pounds or fifteen feet wide, PEP has the equipment and the employees to take care of your transportation needs.
