## PipePatch

### The No-Dig Pipe Repair System

The Fernco PipePatch is the latest development in high performance NO DIG pipe repair solutions. The PipePatch provides a quick and easy-to-use method for the permanent repair of sewer pipes. The PipePatch system is quickly and easily installed internally and eliminates the need for costly, disruptive and time consuming excavation.

#### The PipePatch Kit:

This unique kit provides a complete system for the permanent repair of sewer pipes damaged due to corrosion, cracks or infiltration regardless of the sewer pipe age or material. Each kit contains the necessary components required to carry out an efficient pipe repair:

- 1- Fiberglass mat
- 2- Spreading spatula
- 1- Work surface
- 3- Nylon cable ties
- 1- 2 Part mix resin bag
- 2- Pair disposable gloves
- 1- Packer protection sleeve
- 1 or 2 Roll(s) vinyl tape

Available in 3", 4", 6", 8" or 10" kits. Other sizes will be available soon. Call your EJP sales office for more info.

**The Ultimate Resin:** Our patented resin provides the strength and flexibility to permanently repair any cracks and voids. The resin is able to cure in the presence of water and eliminates the possibility of being washed away.

- Odorless and ideal for working in confined spaces
- Outstanding bonding properties to most materials
- Excellent chemical resistance compared to other resins
- Non-flammable, making it ideal for airports, hospitals, etc.
- Non-hazardous, so no transport or disposal problems

#### Equipment Needed for Installation

The PipePatch system compliments drain inspection and cleaning equipment you may already have. Some equipment is available directly from Fernco with the following necessary for proper installation:

- Fernco 3", 4", 6" or 6"-10" flow thru packer. (Must use appropriate packer size for pipe being repaired.)
- Fernco push rods (5' each)
- Fernco flex adapter
- Fernco air regulator
- High pressure jetter
- Pull cable
- Measuring tape
- Sewer camera
- Wire cutters
- Air compressor
