Slide Type Top Extensions

Top extensions allow existing valve box covers to be reused. The top extension slides into the existing valve box top and is adjusted to the height required. The actual extension length is 2" less than the overall length to allow for the valve box cover.

DESCRIPTION	USABLE LENGTH	PRODUCT NUMBER
5 1/4" x 6" Box Top Ext. RD L/C	4"	45240 600

5 1/4" x 24" Box Top Ext. RD L/C	22"	45253 600

Rite Rise Slide Riser

This reduced neck valve box riser is specifically designed to be used in valve boxes that have previously had a riser installed. Minimum height gained is approximately 2". The top flange securely holds the extension in the pavement. When used with the dirt shield, it becomes a conventional slide riser for standard use.
