

Clamps, Couplings and Saddles J-25

Stainless Steel Saddles for PVC Pipe

Stainless Steel Service Saddles

These Stainless Steel Service Saddles are the ideal saddle for use with PVC pipe because the shape will conform to the contour of the pipe without excessive clamping force. Iron saddles must be preformed at the factory if they are to be used on PVC pipe.

These Stainless Service Saddles are lightweight, strong and recommended for areas with corrosive conditions. This saddle can be used on Steel Sized PVC Pipe, C900 PVC Pipe (ductile iron O.D.) and Ductile Iron Pipe falling within the O.D. range listed in the product charts.

Specifications:

- Shells:** Stainless steel per ASTM A 240, type 304, fully passivated. 4" wide on 2" thru 3" sizes. 6" wide on 4" thru 12" sizes.
- Bolts:** UNC roll thread, stainless steel per ASTM A 193, type 304. Fasteners coated to prevent galling.
- Washers:** Stainless steel per ASTM A 240, type 304 and plastic lubricating washers.
- Gasket:** NBR per ASTM D 2000 MBC 610, compounded for water and sewer service. Other compounds available on request.
- Tapped Outlet:** Stainless steel per ASTM A 240, type 304. Available in 3/4" thru 2" CC (AWWA) or IP threads.
