

TR/PL Meters

TR/PL Meters

The TouchRead PitLid (TR/PL) register eliminates the need to open meter box lids to obtain readings. This register comes prewired to a TouchPad sensor housed in a pit lid adaptor module designed for installation in meter box (or vault) lids. Meter readers obtain electronic readings by touching the tip of a PitProbe reading gun to the lid-mounted module, making it possible to read a pit-set or vault-set meter in less than two seconds. The TR/PL register is convertible for future upgrades to centralized Automatic Meter Reading (AMR) over telephone lines or a radio based system.

TouchRead® PitLid Register and Pit Lid Adaptor Module

TouchRead® PitLid register and pit lid adaptor module being read with a PitProbe reading gun.

5/8" thru 2" SR® TR/PL Meters
