**Team EJP Presents
The University of Prescott**

Mission Statement

To prepare students for an exciting career in the Water, Sewer, Drain and Stormwater Solutions market with the most dynamic company in the industry!

U

University of Prescott

“The University of Prescott and Team EJP provided me with a great opportunity and all of the tools necessary to start a career. A wonderful program that gives you real life hands on experiences, and motivates you to succeed. Thank you Team EJP!!”

William Terry

“The University of Prescott is a great program. There are few other, on-the-job training programs that pay both a salary, training and travel expenses while on the road. This program has given me the opportunity to work hard and try new things. I am proud to be a part of it.”

Alex Doherty

“The University of Prescott program has given me the opportunity to travel and to meet many people in the waterworks industry. I am proud to have been given the chance to be in this program and I intend to excel in a long career with the Prescott companies.”

Brian Thompson

The “University of Prescott” is a two year program that prepares students for careers in the Water, Sewer, Drain and Stormwater Solutions Industry.

PROGRAM:

- Openings for 6-8 students annually.
- Students receive training (instruction and hands-on) on many aspects of our business.
- Students spend time learning from experienced EJP employees about all jobs within the company.
- Students spend time at different Divisions, training and gaining experience and knowledge.
- Upon graduation, students will be assigned to positions within the company that they are best suited for.
- As full-time positions open up at various locations, graduate students will have the opportunity to apply for those positions.
- Average completion time is approximately 2 years.

REQUIREMENTS FOR ADMISSION:

- Strong desire to learn all aspects of the Water, Sewer, Drain and Stormwater Solutions Industry.
- Willingness to travel throughout New England, New York and the Midwest during training.
- Willingness to move to a location with an opening upon graduation from the program.
- Satisfactory completion of a physical exam, background check, drug screening and a signed non-compete agreement.
- Potential students must be graduates from high school, college or trade school who have an interest in the industry and wish to begin an exciting new career path.
