5' Pipe Tamping Bar

This multipurpose tool can be used for tamping and assembling pipe!

The angled bottom plate forces dirt under the pipe insuring proper bedding. The top of the bar is forged flat to give it more bearing surface, helping it to hold better in the dirt while pushing pipe together.

- 1 1/8" round steel stock
- 5/8" x 4" x 4" bottom plate angled to force dirt under pipe
- Forged flat on top end for pushing pipe together
- Weight: 16 lbs.±
